## CordJacket™

A highly functional and aesthetically appealing cord manager. All cabling easily inserts into a specially designed conduit that also keeps the form of the sleeve. The conduit and form is created through a proprietary configuration of semi-rigid bands inset into the inner liner. The sleeve wraps around the cabling and is closed with a zipper. Because of this pre-shaped flexible form, felt sleeve and zipper, it is easy to route, and to add and remove cables.

Base plate available in White, Grey & Black paint colors.  
Wool felt exterior available in Natural Grey and Black.  
Available in 3 heights.
