

Kynde Collection

Three H

Connect. Collaborate. Create.

**The Kynde Collection
is more than furniture.
It's an invitation.**

With no hard edges or hierarchy, our tables encourage real, organic connections. Adaptable to the environment within, yet keenly aware of how it affects the world outside, our materials are carefully chosen to have the least impact possible on the planet.

Tables that fit every size of room. And personality.

HHH. Kynde Collection

Anything but base-ic.
With two styles and multiple color options, our bases are more than resting spots for our table tops. Each base comes with an option of either a Techknit covering or a laminate panel.

Colorful options. Green footprint.
From base to top, we use materials that matter to our planet, and its people. From our laminates to the steel we source, we keep our carbon footprint light. That includes our easily recyclable Technit base, which is made of a single resin yarn.

Features that are thoughtful, and thought-out.

We've got the edge.

Sitting at a table should put you at ease.
It's why our tables have rubber edges on
the sub-top so you never hit a sharp one.

**Pay close attention
to finishes and
don't underestimate
their impact.**

Lee Fletcher. Kynde Designer.

//

Small, yet mighty awesome.

Invites and delights.
The shape, and size, of every table
is designed to make people feel at
ease around it.

Tables are just the beginning.

Simple. Minimal. Unignorable.

With an intuitive design, our credenzas are crafted with recessed pulls to keep them uncomplicated yet elegant.

A Natural Sitting Place.

When there are more people than chairs in the room, you can rest easy on our Bench with Fulstop. It comes with seats, includes a power socket and a surface for personal items.
