# Case Study Winston Golf Club

Calgary's inner-city hidden gem: a semi-private, 103-year-old golf club

**Project: Clubhouse Locker Room | Calgary, AB**
To elevate its clubhouse locker room, Heritage Business Interiors (HBI) turned to Three H. The solution: Harris, finished in a bleached oak z locker design, delivering a clean, upscale look that honors the club's heritage.

**Why Harris Lockers**
The club needed lockers that would integrate seamlessly, offer secure, convenient access for members, and adapt to the existing room. Harris Lockers checked every box: a refined finish, integrated digital locks, and the flexibility to be tailored to site conditions for a flawless, built-in look that serves members every day.

**The Three H Difference**
Three H worked hand in hand with our dealer partner from start to finish, providing dimensions, mock-ups, and finish samples so every locker fit the space exactly as designed. The result is a polished, member-ready locker room that both our dealer partner and the club are delighted with.
